Prepared for: | Date: 03/05/2025

Executive Summary

This project involves developing responsive React components and interfaces, building and maintaining Node.js backend services and RESTful APIs, integrating with third-party services, collaborating on architecture and implementation, writing clean, maintainable, and testable code, participating in code reviews and testing procedures, and delivering documentation.

Scope of Work

Develop responsive React components and interfaces, build and maintain Node.js backend services and RESTful APIs, integrate with third-party services, collaborate on architecture and implementation, write clean, maintainable, and testable code, participate in code reviews and testing procedures, deliver documentation

Requirements

- React development experience for complex interfaces
- Node.js backend development experience
- PostgreSQL experience
- Integration of third-party APIs
- Documentation delivery

Deliverables

React components and interfaces (1 N/A)

Pricing Summary

--

Develop responsive React components and interfaces following design specifications

Node.js backend services and RESTful APIs (1 N/A)

Build and maintain Node.js backend services and RESTful APIs

Integration with third-party services (1 N/A)
Integrate with third-party services

Collaboration on architecture and implementation (1 N/A)
Collaborate with senior team members on architecture and implementation

Clean, maintainable, and testable code (1 N/A)
Write clean, maintainable, and testable code

Documentation (5 N/A)
Deliver documentation

Item	Unit Price	Qty	Total
React components and interfaces	\$6.00	1	\$6.00
Node.js backend services and RESTful APIs	\$5.00	1	\$5.00
Integration with third-party services	\$4.00	1	\$4.00
Collaboration on architecture and implementation	\$3.00	1	\$3.00
Clean, maintainable, and testable code	\$2.00	1	\$2.00
